

# DATA COLLECTION RESULTS:

## MAINE'S COVERAGE NEEDS

Through substantial outreach efforts aimed at Maine's first responders and other public safety stakeholders, FirstNetME has refined its initial assessment of the coverage needs throughout the state. As indicated by the two infographics above, the recently collected data reveals the need for coverage is far greater than preliminary estimates indicated.

Through these recent data collection efforts, FirstNetME was also able to assign priority levels for coverage needs across specific areas. These results can be found in the table below.

### HIGH PRIORITY

- |                                  |                             |                            |
|----------------------------------|-----------------------------|----------------------------|
| Airports                         | Fairs                       | National Highways          |
| Border Crossings                 | Fires                       | Nursing Homes              |
| CAMEO Facilities                 | Harbors                     | Red Cross                  |
| Cell Calls for Service           | High Risk Areas of Interest | Religious Buildings        |
| College Commencements            | Hospitals                   | Running Events             |
| Commercially Navigable Waterways | Municipal Law Enforcement   | Schools                    |
| Correctional Facilities          | Federal Law Enforcement     | Ship Berthings             |
| EMA                              | State Law Enforcement       | State Events               |
| EMDC                             | Military                    | State Facilities           |
| EMS                              |                             | Landline Calls for Service |

### MEDIUM PRIORITY

- |                 |                                  |
|-----------------|----------------------------------|
| Airport Runways | Federally Recognized Tribe Areas |
| Armories        | Next Gen Address Points          |
| ATV Trails      | Non-Residential Buildings        |
| Beaches         | Railroads                        |
| Bridges         | Roads with Landline Calls        |
| Dams            | Snowmobile Trails                |
| Federal Lands   | Structure Points                 |
|                 | Towers                           |

### LOW PRIORITY

- |                             |                       |
|-----------------------------|-----------------------|
| Boat Launches               | Post Offices          |
| Campsites                   | Ranger Stations       |
| Conserved Parks Land        | Seismic Lines         |
| Hiking Trails               | Trail Structure Camps |
| Hiking Trail Markers        | Water Areas           |
| Hiking Trail Structures     | Waterbodies           |
| Hiking Trail Transportation | Waterlines            |
